ABOUT ME

Skilled Front-End Developer with expertise in JavaScript, C, and C++, excels in creating captivating web interfaces. Specializes in responsive design and user interface development, with a strong attention to detail. Enthusiastic about utilizing programming abilities to design seamless and user-friendly digital solutions.

EXPERIENCE

WEB DEVLOPMENT

Inbox Technology

Internship

- Proficient in PHP for server-side scripting, MySQL for database management, and frontend technologies such as HTML, CSS, and JavaScript. Experienced in utilizing Bootstrap and other frontend frameworks for responsive design.
- Currently engaged in actively developing a project that incorporates these technologies, demonstrating practical skills and ongoing learning in web development.

PROJECT

ONLINE COURSE REGISTRATION SYSTEM

- This website is a user-friendly online course registration system built with HTML, CSS, and Bootstrap for seamless frontend experience. Leveraging JavaScript for dynamic interactions, it integrates PHP for robust backend functionality and MySQL database for efficient data management.

COFFEE SHOP

- This coffee shop website is crafted with HTML, CSS, and JavaScript to ensure a fully responsive and visually appealing design across all devices
